

Earth Day is an annual event observed by 192 countries world-wide. This year Earth Day falls on Saturday, April 22nd, 2017. We have selected this date for our annual clean-up of the Masonic Section in the **TOMBSTONE** City Cemetery. Please mark your calendar and join us in this respectful undertaking.

Our efforts over the past several years have greatly improved the appearance of the Masonic Section. It is now a fitting location for the final resting place for our departed Brothers and their families. It so important that we maintain this sacred ground in a neat and orderly condition.

Because of our recent past efforts, our work mission will not be strenuous or long in duration.

On Saturday, April 22nd, 2017 the clean-up crew will meet at Wyatt's Café on Third Street between Allen and Tough Nut in Tombstone at 0830 AM.

Please bring your work clothes and implements, rakes, shovels, etc.

Again, please join us on April 22nd, 2017 --- It is the Masonic thing to do!

W.:B.: Pete Giese

Below are a few photos of previous clean-up sessions, it's fun, please join us on April 22nd, 2017.
